BRIAND FORESEES WORLD PEACE

Hopes All Nations Will Ratify
Arbitration Protocol

ADDRESSES LEAGUE ASSEMBLY

French Delegate Gives Formal Notice That France Accepts the Protocol, Which Provides For Compulsory Arbitration, Mutual Disarmament and Guarantees of National Security—Japan's Objections Overcome.

Geneva, Oct. 2.—Former Premier Aristide Briand of France declared in a speech before the assembly of the league of nations that if the arbitration protocol is ratified by governments and parliaments of the nations represented here he could truly say the league has established world peace.

Briand gave formal notice that France accepts the protocol, providing for compulsory arbitration, mutual disarmament and guarantees of national security, drawn up by two subcommittees of the league and presented for the assembly's approval.

There is no doubt among those conversant with the peace discussions that the protocol will be approved by the assembly, a step to be followed by the transmission of the protocol to the governments represented for ratification by their parliaments.

At Great Britain's request, France through M. Briand opened the debate on the protocol. Lord Parmoor replied for Great Britain, after which the representatives of the other states were permitted to place the views of their countries on record.

The objections of Japan to the protocol were overcome by making two amendments to the text. The first provides that a decision by the world court or the league council that a question in dispute is solely within the jurisdiction of a state would not preclude consideration by the council or assembly under the terms of the league covenant. The other has to do with the much discussed "aggressor state" and stipulates that unless a country with a judicial sentence against her fails to submit the question to the council or assembly under article 11 of the covenant she shall not be held to be an aggressor.

England, through Lord Parmoor, lord president of the council, did not go as far as France, merely announcing her acceptance of the resolution transmitting the protocol to the government, but promising to exert all the influence of the British government and parliament to ratify it. The speaker insisted that the protocol represented no attempt to make the council of the assembly of the league a super state, with authority over the various governments. Such an attempt would court inevitable failure, he said. "Neither the council nor the assembly," he continued, "will have any power to interfere in internal affairs beyond what is already comprehended in the covenant, that is to say, not until a stage has been reached which means war or a threat of war, at which stage a new condition arises and we enter into the sphere of international law."

BY HUNDREDS

Aliens Are Smuggled Into This Country Across Canadian Border.

New York, Oct. 2.—Smuggling of aliens across the Canadian border and into the United States is found profitable by the law violators, according to federal officials, who say immigrants are sneaked over the Canadian border from Rouse's Point to Ogdensburg in hundreds and who work their way down through the state to New York city or other industrial centers. The official charged that there is, in Montreal, a syndicate of taxicab men openly advertising along the St. Lawrence river front that they will take aliens into the United States without formalities of complying with the immigration regulations. Knowledge of this syndicate came through questioning immigrants who have been arraigned before Federal Judge Frank Cooper at Malone, N. Y., for illegal entry into this country.

Lacked Courage to Kill Self.

Ottawa, Canada, Oct. 2.—John Buchanan Piere, a bookkeeper, killed his wife and two children in their home here, and then walked to the police station and surrendered. He said that he intended to commit suicide after killing his wife and children, but that he did not have the courage.

NOEL FRANCE

Dallas (Texas) Girl Winner
of Southwest Beauty Contest.

CAVERLY IN HOSPITAL

Suffered Nervous Collapse, but is Improving Rapidly.

Chicago, Oct. 2.—Chief Justice John R. Caverly is ill at Mercy hospital in this city. He is suffering from a nervous breakdown, due to the tremendous strain imposed on him by the Leopold-Loeb murder hearing and the vast number of letters reaching him. No one is permitted to see Justice Caverly or even communicate with him.

Former Judge C. A. McDonald, who visited Caverly, said: "Not even his most intimate friends were aware of the judge's breakdown and they actually believed that he had gone away for a rest, as had been announced. He became ill almost immediately after he had given his decision and went to the hospital the next day. He is improving rapidly now."

CLUB CONGRATULATED BY COOLIDGE

Thousands Greet New American League Champions.

Washington, Oct. 2.—"You won because you deserved to win," President Coolidge told the players of the Washington American league club at a popular demonstration for the new champions here.

The president continued: "You bring the laurels from one of the hardest fought contests in all the history of the national game. You have made the national capital more truly the center of worthy and honorable national aspirations."

To Manager Harris the president tendered, on behalf of the citizens of Washington, a loving cup, with congratulations "on the victory already won and every wish for your success in the contest which is still ahead of you."

Thousands of shouting fans, some waving pennants, others waving hats and still others too busy scrambling for points of vantage to wave anything, swarmed around the Ellipse to hear the president.

"As the head of an enterprise which transacts some business in this town," Mr. Coolidge said, "I have the double satisfaction in welcoming home the victorious ball team."

Smiling as he spoke, the president said that "when the entire population reached the point of requiring the game to be described play by play, I began to doubt whether the highest efficiency was being promoted. I contemplated action of a vigorous disciplinary character, but the outcome makes it impossible." "We are a somewhat demoralized community," he added, "but exceedingly happy over it."

Business was practically suspended. Cheering fans, instead of remaining along sidewalks, rushed into the avenue and formed such a narrow passageway that for a time it looked as if the automobiles carrying the players would never reach the Ellipse to receive the president's greeting.

Police could do but little with the crowd; they were too busy cheering themselves. Traffic officers did not worry about helping the motorists move along, and from the treasury to the capitol machines, in some places four abreast, remained in a traffic jam while the marchers passed by. A bedlam of honking horns added to the din.

RESISTS EFFORTS OF THE STATE

Corn Borer Moving Southward
From Lake Erie.

NOW THREATENS CENTRAL OHIO

Present Season Shows Unusual Increase in the Number of Townships Infested With the European Pest. State Director Truax Recommends Four Measures to Check Ravages of the Insect.

Columbus, Oct. 2.—State Director of Agriculture Truax announced that, despite the combined efforts of the state and federal governments to check the spread of the European corn borer, the destructive insect is wending its way rapidly southward from the lakes region toward middle Ohio counties.

Director Truax declared that the present season has shown an unusual increase in the number of townships infested with the European corn borer. "By the end of the 1924 season," he said, "the number of townships reported infested, as of Sept. 1, 1924, will have been considerably more than doubled."

Quarantine was declared in November, 1923, in 104 townships reported by scouts to be infested with the insect. On Sept. 1, 1924, Director Truax recalled, 104 additional townships had been reported as infested, making more than 200 townships affected. The state agricultural department's records show additional infested townships being reported by its field workers almost daily, he said.

While the commercial damage from the corn borer at present is inconceivable, Director Truax said he believed there was grave danger that by the end of the harvest season this year the pest may have made noticeable inroads in the farmers' incomes in Ohio. "If the European corn borer continues to spread as rapidly in the future as it has in the last few months," said Truax, "its mutilation of Ohio corn soon will reach such large proportions that it can not be overlooked."

Four measures were recommended to the farmer as a means of reducing to a minimum the destruction by the corn borer. They were: Cut close to the ground; put the corn in a silo, if possible; shred the corn fodder; burn all crop remnants.

Workers interested in the fight against the spread of the corn borer have found that where the aforementioned rules are observed the farmer is less likely to be troubled with the insect, according to Truax.

At present, the campaign against the corn borer is confined to two activities, he said. Scouts are employed by the state department of agriculture to determine the extent of the spread of the insect, and quarantines are established to prevent the infected ears from coming into contact with healthy stalks. Then there are the research bureaus at Oak Harbor and Sandusky, where various methods of control are tested.

AIR RACES START TODAY

Fifty Thousand Dollars in Prizes Offered at Dayton Meeting.

Dayton, O., Oct. 2.—The international air races started this afternoon at Wilbur Wright field and will be concluded Saturday afternoon. More than \$50,000 in cash and liberty bonds is to be given as prize money to winners of the major contests. Twelve major events are on the official program. Two hundred speed and endurance pilots are entered. Officials expect the races to attract in the neighborhood of 200,000 spectators daily. Arrangements have been made to seat crowds of this size.

The round-the-world fliers will arrive here Friday night to be the honor guests of the annual National Aeronautic association banquet. Mayor Hale will present each with \$1,250 in liberty bonds on behalf of Dayton, in recognition of their trail blazing achievement. Saturday the globe pilots will "do their stuff" at the air races and be introduced to the spectators.

Former Officials Convicted.

Cleveland, Oct. 2.—Harry A. Perris and Fred D. Baker, former vice presidents of the Municipal Savings and Loan company, tried jointly on a charge of certifying to false financial statements, were found guilty by a jury in common pleas court. Sentence was deferred until the cases of four other former officials of the Municipal and the Representative Realty company are disposed of.

DOCTOR WALLRAF

Recent Photo of President
of the German Reichstag.

OHIO HAPPENINGS

Dangerous Lodgings.

Columbus, Oct. 2.—A probe into lodging houses in the university district used for sleeping quarters by students attending Ohio State university has disclosed startling conditions in some. City Building Inspector Walters said. The investigation is being made by deputy building inspectors and city firemen. Orders are being given that fire escapes or additional stairways must be provided in buildings using third floors for sleeping quarters. One home was found where an ordinary sized attic was used by 15 students for sleeping, although it had only one stairway.

Geers Memorial Unveiled.

Columbus, Oct. 2.—A bronze memorial tablet to Edward F. Geers, famous trainer and driver, was unveiled with fitting ceremonies at the Columbus driving park. Grand Circuit racing operations were suspended during the exercises. Geers, the dean of American harness race drivers who had been a familiar figure at Grand Circuit meetings for years, was recently killed in a racing accident at Wheeling, W. Va.

Mines Taken Over.

Gallipolis, O., Oct. 2.—The Marmet and Black Betsy coal mines on the Kanawha river, and coal elevators at North Bend, Ind., were taken over by Johnson McKinley, president of the Richland Coal company, and others of Wheeling, W. Va., at a reported price of \$2,500,000. The new owners announced that extensive improvements would be made to the property.

Brookhart Won't Bolt Party.

Camp Perry, O., Oct. 2.—United States Senator Smith W. Brookhart of Iowa denied he would bolt the Republican party, but was striving to eliminate the "stand-patters" from the party that was led by such patriots as Lincoln and Teddy Roosevelt. "Understand me? I refer to the original Teddy, the former president, not young Teddy," Brookhart said.

Davis Makes Pledges.

Defiance, O., Oct. 2.—Harry L. Davis, Republican nominee for governor, in a speech here, promised to shift the road tax burden from abutting property owners and divide it over the entire state; eliminate politics from the state welfare department and the state department of agriculture, and to beautify the 100,000 waste acres in Ohio.

Sawyer's Will Probated.

Marion, O., Oct. 2.—The will of the late Brigadier General Charles E. Sawyer, personal physician of President Harding, was admitted to probate here by Probate Judge Louis B. McNeal. General Sawyer left all of his property, both real and personal, to his widow, Mrs. Mary Sawyer of Marion.

Three Men Burned.

Columbus, Oct. 2.—Cleve Leslie, Clarence Rose and John King, Columbus Railway and Light company employees, were severely burned by a gas explosion in a manhole in which they were working.

Body Found In Cesspool.

Cadiz, O., Oct. 2.—The body of Walter Decker, 45, dairyman, was discovered in an abandoned cesspool here. It is believed Decker did not notice the pool and he broke through the thin covering.

Murder Indictments Returned.

Columbus, Oct. 2.—Four persons were indicted for homicide and three for kidnapping children in the report of the September grand jury. In all 120 persons were indicted by this report, which contains a total of 107 indictments.

PARTY FRAMED TO GET SHERIFF

Admission Made by Woman at
Hollywood Trial.

NAMES STATE DRY AGENTS

Charges Against Former Sheriff of Franklin County, Who is on Trial For Alleged Illegal Transportation and Possession of Liquor, Were the Result of Frame-Up, the Witness Says From the Stand.

Columbus, Oct. 2.—Mrs. May Chipman, the state's chief witness, dealt the prosecution itself a blow when the trial of former Sheriff Frank L. Hollywood of this county for alleged illegal transportation and possession of liquor was opened in the court of Justice A. C. Kuhn. The witness admitted that the charges against the former sheriff came as the result of a "frame-up."

Mrs. Chipman told of her acquaintance with two state prohibition officers and of her agreement with them to assist in "getting" Hollywood. Mrs. Chipman herself called the sheriff on Aug. 16 and invited him to her home, saying that the sheriff of Hamilton county was to be a guest there. "I thought by telling him that that he would want to come," the witness said.

Admission that the party was "framed to get Hollywood" by W. O. Spriggs and Charles Holt, state dry agents, with the knowledge and consent of Frank S. Evans, prohibition commissioner, was made by Mrs. Chipman. The admission was corroborated and elaborated by Holt and Spriggs under cross-examination.

Neighbors from her old home in Cincinnati, neighbors from her girlhood community in the Kentucky hills, made unflattering statements about Mrs. Chipman's character and told tales of gay parties, a succession of lovers and illicit liquor.

Holt and Spriggs told of planning the trap for the sheriff, and of searching the Chipman house before he was to arrive there, and after Mrs. Chipman said he had been there, when they said the liquor offered in evidence was found in a pitcher. They also told of a trip to Cincinnati, and of two other trips to "health camps" near Columbus, in company with Mrs. Chipman and another woman.

WOULD STABILIZE RAIL EMPLOYMENT

Special Committee Will Try to
Work Out a Plan.

Washington, Oct. 2.—A plan for the stabilization of employment on the railroads of the country may be worked out by Daniel Willard, president of the Baltimore and Ohio Railroad company, who has been elected chairman of a special committee of the Association of Railway Executives. The committee is composed of the presidents of nine railroad companies and the chairman of the board of another.

The committee hopes to work out a plan by which reduction of forces and purchases in dull seasons may be avoided as far as practicable, and by which expenditures may be distributed more equally between times of depression and times of prosperity. The establishment of regional advisory boards by representatives of the shipping public at the request of the American Railway association is one step in the direction toward stabilization, Mr. Willard said.

The railroads of the United States, it was pointed out, purchase about 30 per cent of the country's coal production, 20 per cent of the lumber, 25 per cent of the steel and high percentages of other products. If their purchases of these things could be distributed more equitably through the year, it was suggested, the stabilization would affect not only the 1,800,000 railroad employees, but it would have a strong influence on industries.

Cubs Take the First.

Chicago, Oct. 2.—The Cubs of the National league won the first game of their series with the White Sox of the American league by a score of 10 to 7.

NAMED IN AFFIDAVIT

Albert B. Fall Alleged to Have Received Bonds in Canada.

Washington, Oct. 2.—In an affidavit filed by special government counsel prosecuting the oil suits in Toronto, Canada, and made public here, it is charged that Albert B. Fall, former secretary of the interior, received \$90,000 worth of liberty bonds in dividends declared by the Continental Trading company of Canada shortly after negotiations of a contract with the Sinclair and other oil companies to re-sell 33,333,333 barrels of oil purchased from other operators.

The document was filed with the court at Toronto to show cause why Atlee Pomerene and Owen J. Roberts, federal oil attorneys, should be permitted to examine Henry Smith Osler, president of the Continental company, concerning the transaction. The affidavit does not charge that Fall received the bonds as dividends. It merely says that \$90,000 worth of certain bonds delivered to stockholders of the company were in the possession of Fall shortly after their distribution.

Boulay Challenges Davis' Claim.

Columbus, Oct. 2.—L. A. Boulay, state highway director, challenged the statement made by Harry L. Davis, Republican candidate for governor, that under the Davis administration more than three times as many roads were built than during any previous two years. Boulay gives the following figures on highway work: In 1917 there were 354 miles built; in 1918 there were 436; in 1919 there were 217; in 1920 there were 493; in 1921 there were 541, and during 1922 there were 535. The last two years were the Davis years.

APPLICATION FILED

Indiana Transit Concern Would Operate Trucks in Ohio.

Columbus, Oct. 2.—Differences between the Ohio authorities and the Red Ball Transit company, an Indiana concern, are now said to be on the road toward an amicable settlement, as the result of the filing with the state utilities commission of an application from this company for a certificate to operate a fleet of trucks in Ohio. The Indianapolis company has a fleet of nine trucks operating over irregular routes out of Cleveland, Columbus, Dayton and Cincinnati, with 36 trucks stationed in other cities, which at times may come into the state. The dispute between the company and the utilities commission arose when this body revoked the company's certificate, alleging the company had made false representations to the licensing body.

Pair Admits Burglaries.

Columbus, Oct. 2.—Ross Dolby, university student, and Frank Hammill, a high school pupil, confessed, police say, to a series of burglaries and thefts in this city. Dolby admitted, according to the police, that he and Hammill had participated in at least eight burglaries, and made startling disclosures in connection with the double life the pair were leading. Hammill also confessed after his companion told the story, the officers said.

MARKET QUOTATIONS

QUALITY

SERVICE

SOCIALISM IS HIT BY MR. COOLIDGE

Foreign to the Principles of Our Institutions, Says President.

President Coolidge, in an address before a great open-air audience at the close of the Holy Name society convention in Washington, had some pertinent things to say about socialism, communism and the necessity of upholding the Constitution, his utterances being directed at the forces that are supporting the LaFollette-Wheeler ticket.

"Our American government was the result of an effort to establish institutions under which the people as a whole should have the largest possible advantages," said the President. "Class and privilege were outlawed, freedom and opportunity were guaranteed. They undertook to provide conditions under which service would be adequately rewarded and where the people would own their own property and control their own government."

The founders of the government, the President said, recognized authority, both earthly and spiritual. The foundation of our independence and our government, he maintained, rests upon basic religious convictions.

Divine Sanction for Authority.

"The Constitution and laws of our country are adopted and enacted through the direct action of the people, or through their duly chosen representatives," said the President. "They represent the enlightened conscience of our country. They ought always to speak with the true and conscientious voice of the people."

"Such voice has from time immemorial had the authority of divine sanction. In their fundamentals they do not change. As new light arrives they may be altered in their details, but they represent the best that we know at any given time. To support the Constitution and observe the laws, is to be true to our own higher natures. That is the path, and the only path, toward liberty."

Coincident with the right of individual liberty under the provisions of our government, he indicated, is the right of individual property.

Fundamental Human Rights.

"Socialism and communism cannot be reconciled with the principles which our institutions represent. They are entirely foreign, entirely un-American. We stand wholly committed to the policy that what the individual produces belongs entirely to him to be used for the benefit of himself, to provide for his own family and to enable him to serve his fellow men."

Principles underlying American institutions, he said, "bestow upon the people all there is to bestow."

"They recognize in the people all there is to recognize," he went on. "They are the ultimates. There is no beyond. They are solely for the benefits and advantages of all the people. If any change is made in these principles it will not be by giving more to the people, but by taking from them something of that which they now have. It cannot be progress. It must be reaction."

United States Principles Vindicated.

In spite of criticism of American institutions, the proof of their soundness and strength, he said, lies in our wealth, educational facilities, charities, religious institutions, and in the moral influence exerted on the world.

"Most of all it is apparent in the unexampled place which is held by the people who toil," he added. "Our inhabitants are especially free to promote their own welfare. They are unburdened by militarism. They are not called upon to support any imperialistic designs. Every mother can rest in the assurance that her children will find here a land of devotion, prosperity and peace."

Guarantees of religious liberty in the Constitution were referred to by the President, who quoted the clause prohibiting any religious test as a qualification for public office. "This," he said, "is the essence of freedom and toleration, solemnly declared in the fundamental law of the land."

Dawes' Speaking Plan.

Brig. Gen. Charles G. Dawes returned from South Dakota and Iowa convinced that he had found the right method of meeting LaFollette sentiment in that political belt and ready to do some more hard riding and rear platform talking upon the issue of saving the Constitution and the present form of the American government.

"In the future, aided by some of his 'minute men,' his warnings against the business and industrial chaos which he believes would follow a victory of the LaFollette plan of congressional government are to be delivered chiefly as extemporaneous speeches from the end of his special car which is to be fitted up with amplifiers.

His experience on this western trip was that good sized crowds are ready to listen to him in the cities where stops can be arranged. In addition, he has found that he likes the work and the contact.

He proposed such a general plan to the Republican speakers' bureau for his long western swing, which is scheduled to start October 4. He would like to avoid making any more long academic speeches which require great preparation. He is filled now with his subject and ready to shoot at a moment's notice.

Polish Up Your Buttons.

To restore fine pearl buttons to their former color and luster wash in warm water and soap suds, then dry and polish with a nail buffer and a cake of nail polish. Now that it is difficult to get the finer quality of buttons, this method is satisfactory—the buttons look like new.

Old English Holidays.

In the list of old English holidays Candlemas was February 2, the date on which we now look for the groundhog to forecast the weather, and Old Candlemas, February 14, which is now observed at St. Valentine's day.

WARNING TO FORD OWNERS.

Recently stock circulars were sent to almost all Ford owners offering fractional parts of shares of Ford in Canada stock at \$6 per portion.

We are issuing our first authoritative information on this for the protection of the public. The sale of this stock at the prices quoted in the circulars would be just \$145 per share more than the stock is quoted on the Curb market and the book value of the stock is approximately \$375 as of July 1, 1924. We will be pleased to secure any further information in this connection.

INTERMEDIATE AND SENIOR TOPIC—Partners With Jesus in His Work.

YOUNG PEOPLE AND ADULT TOPIC—Urgent Need for Full Time Christian Workers.

Having set forth the laws of the kingdom in the Sermon on the Mount, and His power to administer the affairs of the kingdom in the miracles of the eighth and ninth chapters, Matthew now sets before us the methods which the King adopted in the propagation of the kingdom. It should be clearly noted that this chapter does not outline the policy of missionary endeavor in this age. To teach it thus will be a grievous blunder. The following divisions of the chapter suggest the dispensational aspects of the lesson.

I. Instructions Bearing Immediately Upon the Apostles' Work to the Death of Christ (vv. 1-15).

In strictness of interpretation these teachings have no application to any later period.

1. The Ministers Chosen (vv. 1-3). These twelve humble men were chosen and commissioned to carry forth the work of the propagation of the kingdom. They were not commissioned with church truth. These twelve stood in a peculiar relation to Israel.

2. The Sphere of Their Mission (vv. 5, 6). They were to go only to Jews. They had no message for Gentiles, or even Samaritans. After Pentecost this sphere was widened. (See Luke 24:46-49; Acts 1:8). This would be a strange restriction to place upon ministers today.

3. Their Message (v. 7). "The kingdom of heaven is at hand." This meant that the promised kingdom of Israel was at hand, that Jesus Christ, the promised King, was present and ready to set up His kingdom if they were willing to have it. This differs widely from the message of the ministers today. After the church is translated, the same message will be taken up for a brief time by the remaining remnant. (See Acts 15:13-18; Rom. 11; Rev. 7).

4. The Supernatural Authentication of Their Mission (v. 8). They were clothed with power to work miracles. These wonderful works were really done by the twelve. Where is the minister today who is so foolhardy as to try to fulfill this?

5. Their Maintenance (vv. 9, 10). They were to make no provision for their support, but to depend wholly upon the Lord who sent them. They had received the message and power gratuitously, and they were to give it in the same way (v. 9). Happy, indeed, would we be today if we had more ministers who are willing to trust the Lord for their support instead of bargaining for a stated salary!

6. Responsibilities of Those to Whom the Message Was Delivered (vv. 11-15). Upon entering the city or town they were to inquire for a respectable place to stay. Into that home they were to bring peace. If the people would not receive them or hear their message, they were to pronounce judgment upon them, and the turning of the Lord from them was symbolized by the ministers wiping the dust from their feet when turning from the people who rejected their message.

II. Instructions Concerning the Testimony From Pentecost Onward (vv. 16-23).

After Pentecost, testimony for Christ would be fraught with great danger. Both Jews and Gentiles would assail the messengers with the most bitter persecutions. They were scourged in the synagogues before heathen magistrates. Instead of bringing peace to the homes they brought divisions of the fiercest kind among families. In their defense they were to rely upon the Holy Spirit to aid them. These conditions were literally fulfilled in the period from Pentecost to the destruction of Jerusalem. Since the fall of Jerusalem no one has ever been scourged in a synagogue.

III. Teaching Applicable in All Ages (vv. 24-42).

The disciple has the position of oneness with his Master. He is to courageously declare the whole counsel of God, though violently opposed, for so completely is the Lord identified with His disciples that He accepts treatment of them as treatment of Himself.

Seeking the Mercy of God

We implore the mercy of God, not that He may leave us in peace in our vices, but that He may free us from them.—Pascal.

Share in His Blessings

Only those who belong to the Lord's people have a share in His richest blessings.—Evangelical Teacher.

Great Faith

Great faith must have great trials.—Evangelical Visitor.

HAS NEW DEVICE TO RECORD QUAKES

Greater Accuracy Is Also Promised by Savant.

Washington.—The Georgetown university seismological observatory, which in the last 13 years has given to the world first news of many earthquakes, now assures the public that its reports in the future will be even more dependable.

The university today has among its instruments a new seismograph, known as the Galtzin vertical seismograph, the only one of its kind on this side of the Atlantic.

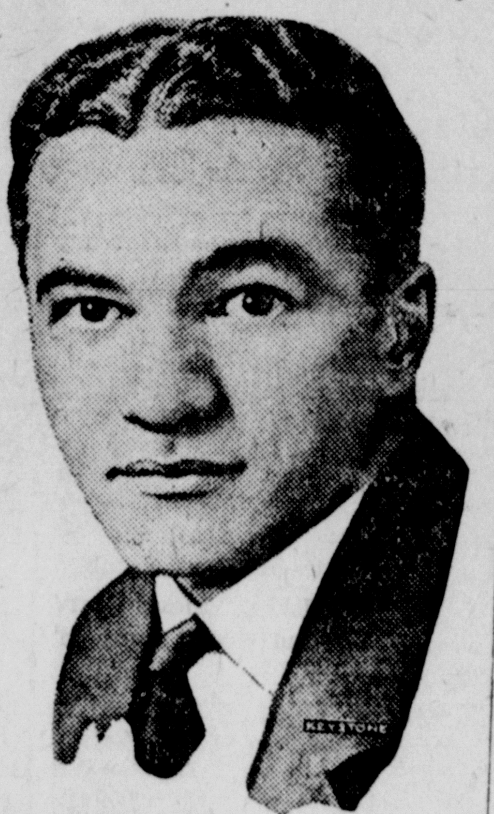

The special features of this delicate piece of apparatus are magnetic registration and photographic recording, whereby the element of friction in the other types of machines is entirely eliminated. Accordingly, the machine will permit of the recording of many more of the world's quakes and permit of a more accurate interpretation of the writings of a shaking earth.

Doctor Sieberg of the Jena seismological station places the number of quakes felt sensibly or instrumentally the world over from 9,000 to 10,000 yearly. Of these in the past only from 90 to 110 have been annually recorded of Georgetown. Father Francis A. Tondorf, director of the observatory, hopes that this number may now reach from 300 to 400.

When it first was founded in 1911 the Georgetown observatory had only one seismograph—of the Weichert type. It carried a stationary mass of 80 kilos. The rocking during windstorms of the south tower of the Healy building, in whose base the instruments were at first placed, necessitated their removal to a cave beneath the quadrangle.

Father Tondorf inaugurated the work at Georgetown when, in 1910, the International Seismological society requested the Jesuit order, with many colleges in the United States, to establish a chain of stations in this country.

Pilot Willing to Be Target for "Death Ray"

Walter Sutter of Elizabeth, N. J., an experienced army pilot, who has come forward expressing his willingness to fly a plane into the path of Grindell Matthews' "Death Ray" and claims that the ray will not bring him down in his plane even at the mean height of 1,000 feet. He also states that an experienced flyer would not have his plane wrecked by the ray without some sort of a struggle.

Refugee Family Tells of Hardships in Mexico

Norfolk, Va.—Deprived of their ranch and property accumulated in 19 years of hard work and forced by the Mexican revolution to flee penniless and without food, Wilhelm von Waldenfels and his family of four have arrived here en route to Germany.

They brought a harrowing tale of flight from their home in the interior of Tabasco, a 48-hour trip down the Grijalva river to Frontera in a dilapidated sailboat steered by a Mexican girl; of lost direction and the piling of the craft on the rocks and the fight against drowning and, finally, of the long journey afoot from Frontera to Vera Cruz.

At Vera Cruz the refugees, hungry and sick, had their first bit of good luck in the presence in the harbor of a steamer. They had no money, but Captain Grashoff, a fellow countryman, waved aside the question of passage.

Declares New Glands Give Sheep More Wool

Liege, Belgium.—Dr. Serge Voronoff, famous French surgeon, addressing a scientific congress here, claimed it would be possible to increase the yield of wool by applying his gland transplantation operation to sheep.

Although the operation cannot be performed successfully on all sheep, he said, he hoped to be able to create a special breed by operation on the direct descendants of a certain number of picked specimens.

The experiment was already being made, he announced, on a flock of 3,000 sheep in Algeria, and also on a number of goats.

Eucalyptus' Superiority.
A cedar tree requires more than a century to grow large enough to yield a 30-foot telephone pole. The eucalyptus will attain a larger growth in 30 years and its wood is quite as durable.

Bible Thought for Today
THE ROAD TO WANT.—He that oppresseth the poor to increase his riches, and he that giveth to the rich, shall surely come to want.—Prov. 22:16.

How to test your feet—

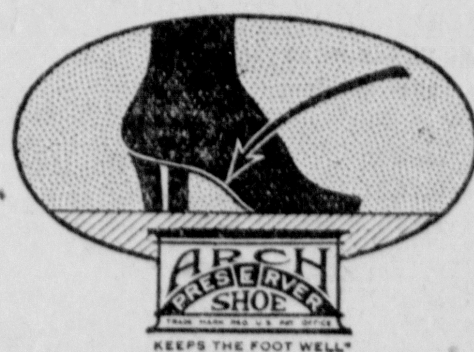

1. Foot in natural position on floor.

2. Foot as in ordinary shoe. Lift heel to this position by stack (1 1/2 inches) of pamphlets or sheets of paper. Rest weight on foot and notice discomfort.

3. Foot on solid foundation; pamphlets pushed underneath arch of foot; no strain—no discomfort. This shows how the Arch Preserver Shoe with its concealed built in arch bridge makes a solid foundation under the entire foot eliminating practically all foot trouble.

Good Furniture Adds Much to the Joy of Living--Little to the Cost

America is fast becoming a nation of better homes. Everywhere there is a growing realization that good Furniture has much to do with happiness and contentment within the home. Furniture, therefore, is now generally recognized as one of the soundest, possible investments—an investment that will pay you richly in "dividends" of comfort, pride and satisfaction. And when you divide the original cost of good Furniture by the many years it will serve you satisfactorily and well, the cost per year is trivial, indeed. Let us show you the many new arrivals, the exceptional values, now featuring our splendid stock of worthwhile Furniture.

Peace.

Peace is not an ideal at all; it is
a state attendant upon the achieve-
ment of an ideal. The ideal itself is
human liberty, justice, and the hono-
rable conduct of an orderly and hu-
mane society. Given this, a durable
peace follows naturally as a matter
of course. Without this, there is no
peace, but only a rule of force until
liberty and justice revolt against it in
search of peace.—N. M. Butler.

CLEAN WHEAT

Trumbull Leads in Popularity With
Fulbio in Second Place.

More than 9,000 acres of wheat sown
in Ohio this fall will be sown with
seed that is 99 per cent or more free
from impurities or diseases of any sort.

These 9,000 acres, scattered thruout
41 of Ohio's 88 counties, represent the
Ohio farmer's interest in and desire
to improve his wheat crop thru pure
seed of high-yielding, disease-resistant
varieties. So the officers of the Ohio
Seed Improvement association and
farm crops extension men at the Ohio
State university report and add:

Within the past five years this de-
sire for better seed has sprung up and
spread until this year growers in 41
counties had 18,300 bushels of wheat
either registered or certified by the
university and the Ohio Seed Improve-
ment association.

Registered wheat must, on field and
threshing inspection, pass as 99.8 per-
cent true to variety and free from
cockle, wheat, rye or smut. For cer-
tified seed wheat, which is designed
more for the general grower, the re-
quirements are 99 per cent of varietal
purity and freedom from weeds and
disease.

All of the wheat certified and regis-
tered this year weighs more than 60
pounds to the bushel, the legal limit.
The majority of it is over 61 pounds
and one lot weighed in at 62.7 pounds.
Farm crops specialists call any
weight over 60 pounds excellent.

The Trumbull variety leads in
popularity with Fulbio next, follow-
ed by Gladden and Portage, all of
which have been developed by the
Ohio Agricultural Experiment station.

CHILLICOTHE WILDCATS SUNDAY

Thru a misunderstanding in names
it was previously announced that the
Eagle team would meet the Chillicothe
Smokehouse team next Sunday. The
fact is there is no Smokehouse team
in Chillicothe this season, and the
team which will be seen here are en-
titled the Wildcats and it is claimed
that they put up a game which de-
serves this title. The team is under
the management of Mr. W. J. Shields,
who is connected with the News-
Advertiser, one of the leading news-
papers of that city.

The game will be called at the
usual time. General admission 50
cents; ladies and children 25 cents. A
warm contest is assured.
2octd3.

"Earn Your Salt."

When any one earns a salary he is
really "earning his salt," for the word
salary has a very interesting story.
When the Roman governor traveled
on his rounds through the provinces
which he governed, the people at each
stopping place had to provide him with
food for his horses and salt for him-
self. This was his salary—salt being
the Latin for salt—or his "salt money."

W. H. WARNER

Confirmed as Police Chief Fines and
Licenses for September.

The city council met in regular ses-
sion Wednesday evening, October 1,
with President Pro Tem L. T. Shaner
presiding and Baker, Kline, Landen-
berger, Leist, Shaner and Wolf pres-
ent.

Director Schneider reported that the
city is still owing Mr. Good the sum
of \$121 for cleaning the Smith ditch
and asked council to make provision
for the payment of this amount.

Mayor Fitzpatrick reported fines, li-
censes and fees collected during the
month of September in the sum of
\$280.85 and on motion of Mr. Wolf
this report was received and placed on
file.

Mayor Fitzpatrick reported the ap-
pointment of W. H. Warner as acting
chief of police caused by the resig-
nation of John Myers and this appoint-
ment was confirmed.

A communication was received from
the department of industrial relations
calling the attention to needed repairs
and changes at the Memorial hall and
on motion of Mr. Leist this matter was
referred to the service director.

On motion of Mr. Baker the Picka-
way Water company was instructed to
remove the fire hydrants as recom-
mended by the director of public safe-
ty and to replace them under his di-
rection. Mr. Wolf asked about the
present status of the proposed con-
tract between the City and Water com-
pany. Mr. Baker, as chairman, said
that the committee would be ready to
make a partial report at the next
meeting of council.

On motion of Mr. Baker the director
of public safety was instructed to take
the necessary action to see that all
the fire hydrants are in proper condi-
tion and that those hydrants which are
not necessary in their present location
be referred to the safety director
with the request that he designate the
places where they should be placed so
as to accomplish the most good.

PERSONALS

A. K. Kuhn spent the day in Colum-
bus.

Miss Rosa Frazier spent the day in
Columbus.

Mrs. James F. Denman spent the day
in Columbus.

Mrs. Louis Friend visited friends in
Columbus today.

Mrs. Charles A. Dresbach spent the
day in Columbus.

Mrs. Lawrence E. Goeller and son
Laddie, spent the day in Columbus.

Edward and Israel Valentine are at-
tending the grand circuit races in Co-
lumbus.

J. S. Baer, H. S. Heffner and W. E.
Davis were business visitors in Colum-
bus today.

Representative C. V. Baker of
Stoutsville, was a business visitor in
Columbus today.

Mrs. O. A. Siler, of Warren, Penn-
sylvania, is the guest of her mother,
Mrs. Samuel Poling.

J. R. Karns, of Meadville, Pennsylv-
ania, is the guest of Rev. Charles R.
Vaughn, of Monroe township.

Fred Frederick of Columbus, who
has been the guest of his daughter,
Mrs. Fred Scholler, of New Holland,
has returned home.

Mr. and Mrs. Charles T. Gilmore and
son, Horace, are home from a visit to
his parents, Mr. and Mrs. Joseph H.
Gilmore, in Jersey City, New Jersey.

Rev. O. A. Keach, D. D., pastor of
the First U. P. church of Akron, who
was the guest of Rev. Charles R.
Vaughn, of Monroe township, has re-
turned home.

Roy E. Brown, yeoman, of the sec-
ond class on the U. S. Coal Collier
O'Ryan, now moored at Melville,
Rhode Island, is home on a twenty
day leave of absence, visiting his
mother, Mrs. Allen Brown.

Satisfied With Little Food.

In the Edinburgh (Scotland) zoo
there is a crocodile that is content with
a rat or a piece of horseflesh every
fortnight. There is an anaconda which
arrived more than a year ago and has
since steadily refused to take food of
any kind, an example of abstinence
surpassed, however, by an Indian py-
thon which during its 13 months' stay
has not voluntarily taken food.

Happiness Above All.

He is a fool and worse than a fool
who trades his happiness for any other
thing that the world has to offer. If,
with a crust you are happy, do not
trade the crust for a feast. If you buy
a fortune with a penny and lose hap-
piness, you have made the worst of
bargains.—Aristotle.

Housewife's Duty.

The housewife's first duty is to see
that every member of her household
is properly nourished.

STRUCK BY AUTO

Emanuel Hundley Knocked Down and
Rendered Unconscious.

Emanuel the nine year old son of
Mr. and Mrs. Robert Hundley, of York
street, was knocked down and run
over by an automobile owned by Mar-
ion Deboy, of Ridgeway, Indiana, this
afternoon about one o'clock.

The boy was considerably cut about
the head and is unconscious. He was
taken to the office of Dr. Howard
Jones by a passing auto.

It is reported the boy was on his
way to school and ran directly in front
of the fast moving car as it came
down the hill near the bridge on North
Pickaway street.

As through life—Exchanges.
The boy was on his way to school and ran directly in front of the fast moving car as it came down the hill near the bridge on North Pickaway street.

Origin of One Proverb.

One obtains historical glimpses in
proverbs. The familiar "robbing Peter
to pay Paul" is said to derive its orig-
in from the fact that in the reign of
Edward VI the lands of St. Peter at
Westminster were appropriated to
raise money for the repair of St.
Paul's.

Now is the time to subscribe for the

AMUSEMENTS

"The Guilty One," a mystery drama
featuring Agnes Ayres comes to the
Met theater for a run of 2 days to-
night. It's a Joseph Henabery produc-
tion, adapted from the stage success
of the same name in which Pauline
Frederick made such a hit in the lead-
ing role. Critics acclaimed it a master
piece of suspense, and this same
quality makes the motion picture even
more absorbing.

The story has to do with an ambi-
tious young wife who attempts to aid
her husband by cultivating the friend-
ship of an influential man. Her hus-
band and brother are led to believe
that she plans a secret rendezvous
with this man and proceed to his apart-
ment secretly to save her. A seri-
ous crime is mysteriously committed.
In finding the guilty one a tremendous
new twist is discovered with a smash-
ing climax.

Edward Burns, recently seen op-
posite Gloria Swanson in "The Hum-
ming Bird" has the leading man's role
in "The Guilty One" and heads an un-
usually capable supporting cast which
includes, among others, Cyril Ring,
Clarence Burton, Crauford Kent,
George Seigman, Thomas R. Mills,
Dorothea Wolbert, Stanley Taylor and
Catherine Wallace. Anthony Colde-
way adapted the story for use on the
screen.

REAL ESTATE SALE.

Pickaway county, Ohio.
Election Nov. 4, 1924.

ROBERT J. YOUNG
Democratic Candidate For
SHERIFF
PICKAWAY COUNTY
2nd Term
Subject to the decision of the ensuing election, November 4, 1924.

EDWIN D. RICKETTS

Republican Candidate for Congress
My record in congress for service to one and all alike is generally known by the electorate of this district. If returned to congress by your suffrage, I will render faithful and conscientious service to all.
I am for the actual and substantial reduction of taxes and real and effective economy, and for such legislation as will advance, promote and protect the interests and welfare of the common people.
In my judgment there should be less politics and more efficiency in official service in the congress of the United States.
The people deserve the highest quality of public service from their representatives in congress, and if elected my time and ability will be devoted to the advancement of their welfare and the protection of their interests.
I will appreciate your support and influence.
EDWIN D. RICKETTS.

Notice to Next of Kin.
PROBATE COURT
PICKAWAY COUNTY, OHIO
In the Matter of the Will of David R. Porter, Deceased.
No. 9258.
NOTICE OF PROBATE.
To Harold R. Porter, 2154 Fuller Street, Columbus, Ohio.
You are hereby notified that on the 1st day of October, A. D. 1924, an instrument of writing, purporting to be the last Will and Testament of David R. Porter, late of Perry Township, in said County, deceased, was produced in open Court, and an application to admit the same to probate was on the same day made in said Court. Said application will be for hearing before said Court on the 4th day of October, 1924, at 10 o'clock A. M.
Witness my signature and the seal of said Court, this 1st day of October, 1924.
JOSEPH W. ADKINS
Probate Judge.
2octd1.

MINSTRELSY
First Rehearsal to be This Evening—
Tickets Are Selling Rapidly.
Committees appointed to have charge of various departments of the C. A. C. minstrel have been working steadily perfecting plans ever since the show was announced and the organization perfected, and now everything is moving like clock work and the show promises to be the greatest success ever given by this popular organization.
The cast committee has been unusually successful in their work and several pleasant surprises are in store for the music and fun loving public when the cast is announced as it will be within a few days.
The committee on tickets have placed the post boards in the hands of club members for distribution to the general public and from reports already brought in the only question facing the ticket committee will be one of finding enough seats to accommodate all those who desire to see the show. The tickets are going fast, better buy yours now.
Remember the dates, Monday and Tuesday nights, October 13th and 14th. Keep one of these dates open and be among those present at the Grand.
Charles Gano, the producer of the show is in the city and the first full rehearsal will be held this evening at the club rooms and the work will pushed intensively from now on.
Mr. Gano is well known here having appeared here many times with the Al G. Field and Coburn minstrels and it is claimed that as a producer he is equally as good as he was as an entertainer.
Watch for future announcements. Remember the dates. Buy your tickets at once.

NEW BOOKS
Recent Additions to the Public Library by Gift and Purchase.
New books and new copies of old ones which have been recently added to the public library, by gift and purchase, are included in the following list:
Alden—The Art of Debate.
Alexander—Climatological History of Ohio.
Atkinson—The Short Story.
Bartholomew & Hurlbut—The Business Man's English.
Bible—Old Testament Narratives.
Bible—Selections from the Old Testament.
Clippinger—Written and Spoken English.
*Courtright, D. V.—History of the Van Kortryks or Courtrights.
*Daniels, Josephus—Life of Woodrow Wilson.
Denison's Bogle Book.
Denison's Christmas Book.
Finney—Modern Business Arithmetic.
Gault—Biographical Sketch of the Betz Family.
Gehrs—Principles of Agriculture.
*Germane & Germane—Silent Reading.
Greer & Text-book of Cooking.
*Groves—Personality and Social Adjustment.
Halleck—History of English in Literature.
Hitchcock—New Practice-book in English Composition.
Hough & Sedgwick—Elements of Hygiene and Sanitation.
Howell—The Human Machine.
Hunter—A Civil Biology.
King, Basil—The Discovery of God.
Law—Modern Short Stories.

Wood—The Child in School.
*Reference.
*Ohio Teacher's Reading Circle.
In the opinion of most young ladies a hare-lip is the only legitimate excuse for a hair-lip.

All Biblical Towns.
It was at Lydda, which was "nigh unto Joppa," that Peter restored Aeneas, "who had kept his bed eight years and was sick of the palsy," and it was, of course, in Joppa itself that Peter restored Tabitha to life. Here also he lodged for a time "with one Simon a tanner, whose house is by the seaside," and it was here that he saw the wonderful vision which taught him the universality of Christianity.

Vegetable Diet.
A well-balanced diet does not necessitate much meat. The leaf vegetables, like cabbage, spinach, celery, onions, etc., are now in their prime, and should be used as the basis of a number of appetizing dishes. Supplemented as they can be by a liberal allowance of milk, cereals and a limited number of eggs, the proper food values are fully maintained.

Didn't Suit Carolyn.
Attend the bake sale Saturday at the Charles H. Smith meat market.
Carolyn was fond of sweet corn. At the table her mother said, "Carolyn, I think you have had enough corn." Carolyn looked up earnestly at her mother as she said, "Mother, I hate for you to do my thinking."

Picture-Transmitting Set.

An apparatus for transmitting pictures electrically is among the latest scientific toys. It is described and illustrated in Popular Mechanics Magazine. The sending and receiving instruments are synchronized by a steel rod, although another system may be used for longer-range work. A photograph must first be reproduced on a copper plate, which is rolled over the cylindrical platen of the sending machine. A needle held against it travels from one end of the roll to the other, and the picture is reproduced on paper at the other end of the line.

The Snake's Rattle.

The rattle of the rattlesnake is developed from the single conical scale or epidermal spine, which in most snakes forms the internal tegument of the tail. The bone on which the roof of the rattle rests consists of the last caudal vertebra and is covered with a skin which is the beginning of the rattle in young rattlesnakes.

Bible Thought for Today

NOT MEAT AND DRINK.—For the kingdom of God is not meat and drink, but righteousness, and peace, and joy in the Holy Ghost.—Rom. 14:17.

Signifies Honorary Promotion.

Brevet is a French word, meaning commission or warrant. In military usage it gives an officer higher nominal rank than the one for which he receives pay. It is an honorary promotion. The first time it was used in the United States army was in 1812, when Capt. Zachary Taylor, who afterward became president, was made major by Lrevet for his brave defense of Fort Harrison against the Indians, near Terre Haute.

Halt Sand Drifts With Grass Tufts.

Sand is used for railroad embankments in many parts of Holland, but much repair to the roadbed was made necessary by the fact that the freshly piled sand drifted during the high winds. To prevent this, tufts of coarse grass have been planted along the slopes, and as the roots spread, a well-sodded bank is formed.—Popular Mechanics Magazine.

Ancient Paraphraser.

Doctor Johnson, in writing a poem, from time to time would run his finger down the page, counting the verses to see how many more he had to write. The doctor had his resemblances to a paraphraser.—St. Louis Globe-Democrat.

MACK PARRETT

Frankly Discussing Natural Gas Facts

COMPUTING THE COST OF NEW FIELD DEVELOPMENT

In our last message to our patrons we showed the location of our new natural gas field and told you why it should be developed. We also presented in that message the evidence of the very great depletion in the West Virginia fields that during recent years has compelled the substitution of manufactured for natural gas in a large number of cities and towns on The Logan Company's system. Whether or not these discontinuances of natural gas and substitutions of manufactured gas shall go on until eventually the supply to your town and others is discontinued, is now a matter for you to determine. All of our old gas fields, from which your present supply is derived, passed their peak of production in 1917 and have steadily depleted since then. Continuous and determined efforts on our part to produce or purchase sufficient additional gas to overcome this depletion have failed to stem the tide. Our 1802 old wells deplete faster than all the new wells drilled in old territory can produce to keep pace with their decline.

Thus, after twenty-one years operation, we have reached a crisis, which can only be overcome by exploring and developing the proposed new fields, the expense of which is prohibitive unless we have your co-operation, since we must also still carry the full expense of the operation of the old field.

Estimated Cost Investment Required for Development of Prospective Gas Field in Guernsey, Tuscarawas and Other Counties

ALREADY INVESTED in		RIGHTS OF WAY

160,000' " 3" " @ .50.....			

The above figures do not include charges for amortization nor interest on investment.

The form of rate and the amount to be charged for natural gas will be based upon the necessary expense as indicated in the above budget and supported by a complete inventory and appraisal of the entire properties of The Logan Company, which is just being completed, in exact accordance with recent decisions of the U. S. Supreme Court in which the

present value of a utility's property is decreed to be the basis of rates. Within a short time our rate proposal will be made to you and your city officials, and in the meantime we invite inquiries and correspondence from any of our consumers who desire more definite information on any feature of these discussions.

THE LOGAN GAS COMPANY
258 East Gay Street, Columbus, Ohio

N. B.—This is one of a series of articles concerning natural gas conditions as they particularly concern our patrons and ourselves.

Optimistic Thought.
A brave man dies but once; while he that lives in constant fear of death every moment feels its tortures.

What Saves Us.
The thing that saves us in this life is an occasional opportunity to smile at its follies.—Baltimore Sun.

How to Carry Ink.
When traveling fasten all the bottles and small jars by adhesive tape. Fasten the tape to one side of the neck, carry it across the cork and down on the other side. Celluloid and ivory boxes and jars may be fastened in the same way. They are easily opened and yet so securely fastened that there is no danger of leaking.

All He Knew About His Meal.
Having finished his meal the diner called for his check. "Let's see," said the waiter, "what did you have?" "Can't tell for the life of me," was the reply; "but what I ordered was minced chicken."—Boston Transcript.

Deep Sea Stuff.
He looked her oar and asked her to sail the sea of matrimony with him. When she said O. K. (or words to that effect) they launched out with a little smack. A wave of color swept over her cheeks and her eyes swam in tears.

Perhaps.
Lucky is the man who marries a widow whose first husband was mean to her.—Chicago Evening Post.

Mange Mites of Hogs Cause Loss

Pest Is Most Troublesome During Cold Months When Hogs Are Marketed.

(Prepared by the United States Department of Agriculture.)
Heavy losses of pork products due to mange mites of hogs have been reported lately to the United States Department of Agriculture by its inspectors in the Central West. In addition to being an irritation to hogs, resulting in general unthriftiness, mange mites cause meat losses running into hundreds of thousands of dollars annually, according to recent information obtained. Reports by J. O. Wilson, chief veterinary inspector of the bureau of animal industry stationed in South Dakota, are now being studied by department specialists from an economic, as well as from a veterinary standpoint. Through the courtesy of H. F. Veenker, superintendent of a large packing house in Sioux Falls, S. D., Doctor Wilson obtained sufficient evidence of avoidable losses to suggest concerted action in reducing the ravages of the mange parasite.

Damage Vital Parts.
Fully 40 per cent of the hogs slaughtered in South Dakota during the winter months of 1923-24 showed evidence of the mange mites, though only about one-half of that number were sufficiently affected as to cause definite losses. The mange parasites damage the hams, bacon and picnic principally—the parts of the hog that are of greatest value. The pest is most troublesome during the colder months, when most hogs are marketed.

The damage to hog carcasses caused by the mites assumes the form of roughened skins and inflammation. In some cases the meat is entirely unfit for food. In other instances the injury places the pork products from such hogs in the lower grades, which have a reduced market value of from 3 to 5 cents. The observations made in South Dakota are believed to be typical of other important swine-growing states.

Loss Preventable.
The United States Department of Agriculture points out that losses due to mange mites are largely preventable. Treatment consists in the application of various simple remedies, ranging from mixtures of kerosene and lard to specially prepared mite-control dips. The hogs may be treated by hand application, hog oillers, spraying, medicated hog wallows, or by dipping. In applying the treatment swine owners should always treat the entire herd, whether all animals show infection or not. Medicated hog wallows are one of the most practical means of reducing mange-mite infection, since the instinct habit of hogs is to wallow in water. By medicating the water in properly constructed wallows the remedies take effect with a minimum expenditure of money, time and labor.

Farmers' Bulletin 1085, "Hog Mites and Hog Mange," discusses practical methods of control and eradication.

Handling Clay Soils Is Most Difficult Problem

Of all the various types of soil to be found, none when properly handled are more productive than the heavy clay. The very fineness of these soils gives them a large water-holding capacity, which will adapt them to the production of small grains and grasses.

The management of these soils presents special problems for consideration. Their fineness gives them a tendency to bake and to require more than the usual amount of labor in cultivation. The lack of sufficient surface or underdrainage makes them cold and wet in the spring, and when there is a lack of vegetable or organic matter, they are hard to work and less productive.

One of the great drawbacks with this type of soil is the fineness of the soil particles. To offset this condition, the farm practice should be so arranged that the operations will systematically open up and make these soils more porous. Special attention must be given to the time and type of plowing and cultivation. Heavy clay soils should be fall plowed when the moisture content is right. If worked when wet, they are apt to puddle and bake. While it is necessary to plow these soils deeply, the depth should be lowered gradually. The early working of these soils, in the spring, is most important.

Hessian Fly Infestation

Volunteer wheat is one of the greatest sources of Hessian fly infestation to fall-sown wheat. Conditions that are favorable to the germination of volunteer wheat are conducive also to the early emergence of the fly. Since this is the only food present, the flies infest it and later broods attack the regular crop. The destruction of all volunteer wheat before planting is, therefore, an important step in Hessian fly control.

To Outwit the Pickpocket.
The haunting fear of being held and left penniless out in a strange world is done away with by a little device so small that it may be carried on the key-ring, where no self-respecting holdup man would think of looking. It has a capacity of one reserve bill. The bill, whether a one or a hundred, when closely rolled, fits into the barrel of the holder. A man who has lost his keys might become excited if the holder contained a thousand-dollar bill, but the average citizen can use the device safely enough.—Popular Science Monthly.

Love Apples.
Love apples is what tomatoes were called years ago when it was told that, if sweethearts would divide one and eat it together, no adverse fate could part them. There was real bravery in this simple act; for, in early days, tomatoes were thought to be rank poison.

HUNTERS' LICENSES.
Lyman McGath is prepared to issue Hunters' licenses, day or night. Office in Bales building over the National Five & Ten Cent store. Residence 335 East Mound street. Telephone 1265. 27septd&wtf.

Sick Poultry Can Be Cured Any Season of the Year.

Circleville, Ohio R. F. D. 1, August 26, 1924.

Mr. Fickardt:—
I have raised chickens for many years but my experiences this year have been more trying than any previous season that I can recall. All spring I had been having trouble with my flock, both young and old, and during the month of July I lost about one hundred of my chickens, quite a number had limber neck.

About August 1, I was nearly frantic and did not know which way to turn. I ran across about this time a bottle of Fickardt's Roup and Cholera Drops and I can say that the results I obtained have fully justified your statements. One case of limber neck was too sick to take the medicine as the other chickens did, but I gave it some with a medicine dropper thinking then that it was a waste of time, but the next morning it was still around and it finally got well. The rest of the flock have straightened out and they are doing well now.

Sincerely,
Mrs. Lucy Honnald.
Fickardt's Roup and Cholera Drops Is a remedy for Roup, Colds, sneezing, Canker, Limber neck, Chickenpox, White Diarrhoea, Indigestion and bowel complaints. Price 50 cents. Manufactured by
